CHALET PROJECT

Freelance Architect | June 2014 - July 2014, Marsa Matrouh, Egypt

worked the design concept of project.

Created, printed and modified drawings in AutoCAD and Revit.

Conducted pre-planning studies for new construction and renovations to buildings and facilities that included specialized functions.

I begin to make interior design (typically using computer program (CAD , 3DMAX), start by placing the fundamentals of the space essential elements then creating aesthetic elements in layout.
